

**Competition to collaboration:
Exploring co-management models for the Spencer Gulf Prawn Fishery**

QUESTIONS

The three Steering Committees are asked to provide answers to a number of questions. The questions provided are the same for each Steering Committee and are designed to be thought provoking (there is no ‘right answer’). The answers to these questions will provide guidance for future stages of the project (Phases 2 and 3). The Investigators, leading the workshops, appreciate an open-minded approach to assist us through the project and look forward to receiving your contributions.

1. What is co-management?

2. What are the pre-requisites for moving to co-management?

3. Why should the State Government and/or industry move towards a co-management model?

4. What benefits are associated with co-management?

5. What fisheries management responsibilities can be shared with, or delegated to industry?

6. What resources would be required to implement co-management?

7. What risks are there in moving towards great co-management?

8. How could these risks be managed? Who by?

9. What fisheries management functions should remain with Government?
