

**Current Co-management Processes in Spencer Gulf Prawn Fishery – PIRSA workshop**

Process	Task / Duty	Stakeholder				
		Govt.	SARDI	Comm.	SGPF	
Legislation / Policy	Fisheries Management Act development and review	M	I	I	I	
	Establishing ecosystem impact benchmarks	M	I	I	I	
	Development of over-arching policy to guide fisheries management	M	I	I	I	
	Management Plan development and review	M	I	I	I	
	Fisheries specific policy development	M	I	I	I	
	Implementation of policy through Regulations	M	I	I	I	
	Public consultation on above	M				
Licensing	Setting conditions	M			I	
	Issue (determining if the licence can be issued)	M				
	Demerit points	M				
	Transfer	M				
	Cost Recovery (fee setting) / Invoicing	M	I		I	
	Boat transfers & Master registration	M				
	Management of the Public Register	M				
Communication	With commercial licence holders	M	M		M	
	To the public	M	M			
	With other government departments	M	M	M	M	
	With the media	M	M	M	M	
Harvest Strategy	TEPS reporting (interactions)				M	
	TEPS data collation & assessment	M	I	I	I	
	Interpret stock assessment survey data for harvest strategies	M	I		D	
	Interpret of spot survey data for harvest strategies	M	I		D	
	Determine spatial harvest strategies (areas open to fishing)	M	I		D	
	Catch / effort (number of nights) restrictions	M	I		D	
	Section 79 – closure notice (to allow fishing)	M	I		I	
	Gazettal / implementation of fishing closure notices	M				
	Amendments to fishing closure notices	M			I	
	Coordination of Committee at Sea (to direct fishing operations)				D	
	Catch & prawn size data collection during fishing				D	
	Closing areas within original H.S. during nightly fishing ('real-time')				M	
	Notifying the fleet of changes	M			D	
Fishing trip report				M		
Stock Assessment	External review of stock assessment	M				
	Survey data collation		M			
	Delegate authority to industry to conduct survey	M	I		I	
	Survey development and design	I	M		I	
	Survey logistics	I	M		M	
	Survey data collection		M		D	
	Survey data verification and analysis		M		I	
	Advice to PIRSA		M		I	
	Manage fishing logbook program, including validating returns		M			
	Logbook data: Collate, enter, maintain database (storage)		M			
	Assessment of fishery against Management Plan	M	I		I	
	Assessment of effectiveness of Harvest Strategies	M	D		I	
	Collection and storage of other biological data		M			
	Ecosystem assessments (ie. By-catch)	M	D	I	I	
	Fishery assessment report (X1)	Data collation & analysis		M		
		Report writing		M		
		Peer review	I	M		I
	Stock status report (X1)	Data collation & analysis		M		
		Report brief	I	M		I
Survey interim reports (x3)	Data collation & analysis		M			
	Report writing	I	M		I	

Spot surveys	Advice to PIRSA		I		D
	Survey development and design	I	I		D
	Survey logistics				D
	Survey data collection				D
	Survey data collation, verification and analysis				D
	Delegate authority to industry to conduct survey	M			
	Assessment of effectiveness of Harvest Strategies		D		
Compliance	Prosecutions	M			
	Prior reporting (notifying of departure and return, and any changes)	M			
	Vessel and equipment inspections	M			
	Audit of exemptions & prior reporting to data collection	M			
	Audit of fishing reports	M			
	Development and implementations of compliance strategy	M			I
	Review of risk assessment	M	I		I
	Everything else	M			
Promoting compliance within SGPF (code of conduct)				M	
Other Research	Broader research	M	M		M
	Research priorities	M	I		I
	Economic research	M			I
	Non-target species research	M	I		I
	Bio-security	M	I		I
	Ecosystem & habitat	M			
Industry development	Market research	I			M
Human capital development	Capacity building	M			M

\*M = Managing authority; D = Delegated authority; I = Input (contributions made)
